Date: _____

ACKNOWLEDGEMENTS

I would like to express my sincere gratitude to my supervisor, for the continuous guidance and support throughout this project.

I would also like to thank the Faculty of Computing and Informatics, Multimedia University, for providing the resources and environment necessary to complete this work.

Finally, I am grateful to my family and friends for their encouragement and understanding.

ABSTRACT

Write your abstract here. In one page, certainly not more than two, summarize the main features of your project; describe what problem you are solving and how you propose to solve it. This brief overview should give a snapshot of the overall structure of your final year project.

- Appendix C Turnitin Similarity Index Page

CHAPTER 1: Introduction

1.1 Overview

Provide an overview description of the project. How did the problem present itself to you in the first place? Describe the nature of the problem in detail.

1.2 Problem Statement

Clearly define the problem that this project aims to address. Explain the context and significance of the problem.

```
top - 13:34:44 up 11 days, 20:39, 1 user, load average: 0.88, 0.97, 0.90
Tasks: 487 total, 1 running, 485 sleeping, 0 stopped, 1 zombie
%Cpu(s): 0.4 us, 0.8 sy, 0.0 ni, 98.7 id, 0.0 wa, 0.0 hi, 0.0 si, 0.0 st
MiB Mem : 15711.9 total, 650.3 free, 8651.3 used, 8127.7 buff/cache
MiB Swap: 4096.0 total, 3275.4 free, 820.6 used, 7060.7 avail Mem

Figure 1.1: example figure

1.3 Project Objectives

The objectives of this project are as follows:

1. First objective.
2. Second objective.
3. Third objective.

1.4 Project Scope

Define the boundaries of your project. What will be covered and what will not be covered.

1.5 Project Limitations

Describe any known limitations or constraints of the project.

1.6 Methodology

Briefly describe the methodology or approach that will be used in this project.

1.7 Target Audience

Describe who will benefit from or use the outcome of this project.

1.8 Summary

Summarize the key points covered in this chapter and provide a brief overview of the remaining chapters.

CHAPTER 2: Literature Review

2.1 Overview

This chapter presents a comprehensive review of existing literature related to the project topic.

2.2 Topic Title

2.2.1 Sub-topic

Discuss relevant literature, prior work, and existing solutions related to your project.

Table 2.1: example table of commands

example	table
Newest logs first	<code>journalctl -r</code>
Current boot only	<code>journalctl -b</code>
Follow live (real-time)	<code>journalctl -f</code>
Specific service	<code>journalctl -u <Service Name></code>
Show last 50 lines	<code>journalctl -n 50</code>

2.3 Summary

Summarize the key findings from the literature review and identify the research gap.

CHAPTER 3: Requirements Analysis

3.1 Overview

This chapter describes the requirements gathering techniques and analysis of results.

3.2 Fact-Finding Techniques

3.2.1 Justification

Justify the choice of fact-finding techniques used.

3.2.2 Questionnaire Design

3.2.2.1 Analysis on Results

Present and analyse the results of any questionnaires conducted.

3.2.3 Observation

3.2.3.1 Analysis on Results

Present and analyse the results of any observations conducted.

3.3 Requirements

3.3.1 Functional Requirements

List and describe the functional requirements of the system.

3.3.2 Non-functional Requirements

List and describe the non-functional requirements of the system.

3.3.3 User Requirements

Describe the user requirements gathered from stakeholders.

CHAPTER 4: System Design

4.1 Overview

This chapter presents the system design for the proposed solution.

4.2 Rich Picture Diagram

Include and describe the rich picture diagram.

4.3 Use Case Diagram

Include and describe the use case diagram.

4.4 Activity Diagram

Include and describe the activity diagram.

4.5 Class Diagram

Include and describe the class diagram.

4.6 Sequence Diagram

Include and describe the sequence diagram.

4.7 Interface Design

Present the interface designs and mockups.

4.8 Summary

Summarize the system design decisions made.

CHAPTER 5: Implementation Plan

5.1 Development Phase

Describe the front-end and back-end coding plan.

5.2 Testing Phase

Describe the testing strategy: unit testing, integration testing, system testing, and user acceptance testing (UAT).

5.3 Deployment Phase

Describe the deployment plan, if applicable.

CHAPTER 6: Conclusion

Summarize what has been achieved related to the objectives, and what is to be achieved in the next phase of the project. Describe any issues experienced during the project such as problems encountered.

Gantt Chart

Replace this text with your Gantt chart using one of the options above.

FYP I Meeting Logs

Replace this text with your meeting logs using one of the options above. A minimum of six (6) meeting logs are required.

Turnitin Similarity Index Page

Replace this text with your Turnitin report using one of the options above. Overall Similarity Index must be $\leq 20\%$.
